## President's Letter

Dear Fellow Investors,

After a challenging 2022 that saw elevated volatility and dismal returns for most asset classes, 2023 has been a year of remarkable resilience for the U.S. economy and global financial markets. Despite many headwinds, including restrictive monetary policy, a regional bank crisis, and geopolitical turmoil, the U.S. economy continued its surprisingly strong growth trajectory. The U.S. quarterly GDP growth rate accelerated to 4.9% in the third quarter of 2023. The U.S. unemployment rate stayed near the lowest level in the past five decades, indicating a tight labor market. In general, consumer spending and corporate balance sheets remained robust.

The U.S. Federal Reserve ("Fed") increased the Fed Funds Target Rate further by 100 bps throughout 2023 to a peak rate of 5.5%, reaching the highest level since the beginning of the 21st century. In late October, the U.S. 10-year Treasury Yield reached the highest level since mid-2007 before the Great Financial Crisis. As inflation cools, the Fed appears to be at the end of its rate hiking cycle. Fixed income returns became positive in 2023 despite the unprecedented bond bear market. The Bloomberg U.S. Aggregate Bond Index and the Bloomberg U.S. Treasury Index posted modestly positive returns, ending their two-year losing streaks. Moreover, the Bloomberg U.S. Corporate High Yield Bond Index returned 13.4%, as credit spreads were tight and the default rate was relatively low despite recent uptrends.

Fueled by economic resilience and optimism, domestic equity markets delivered stellar returns. The S&P 500 Index returned 26.3% during 2023, while the Nasdaq Composite Index returned 44.6% over that same period. As measured by the CBOE Volatility Index (VIX), stock market volatility dropped to the lowest level for the first time since the COVID-19 pandemic. There were wide dispersions across investment styles and geographies. With a sharp reversal from 2022, and a rotation of market leadership, U.S. large cap outperformed small cap, and growth equity outperformed value equity. Stock market leadership, however, was very narrow and highly concentrated on several mega-cap stocks in addition to other beneficiaries of explosive Generative AI growth. The largest seven companies within the S&P 500 Index, referred to as "the Magnificent Seven," were up more than 76% in 2023, dominating the impressive index performance. Non-U.S. equities in developed markets also had double-digit positive returns of 18.2% as measured by the MSCI EAFE Net Total Return USD Index, but lagged domestic equities, while emerging market equities continued to underperform by a large margin.

As we move into 2024, we believe that three key macroeconomic themes are front and center:

**Continuation of disinflation and likely interest rate cuts by the Fed** – While the path of disinflation could be bumpy, most of the key components of the Consumer Price Index have either come down or grown more slowly. Energy and commodity prices have dropped throughout the year. West Texas Intermediate (WTI) crude oil spot price declined from \$80.3 a barrel at the end of 2022 to \$71.7 at the end of 2023, which drove down national gasoline prices. Shelter inflation has been stubbornly high but should start to abate, given rising vacancy rates, ample housing supply, and reduced rental costs. In addition, global supply chains have normalized, and the labor market has cooled despite the low unemployment rate. It is widely expected that disinflation will continue into 2024, therefore, inflation readings will soften further and likely approach the Fed's long-term target. The substantial progress in controlling inflation will enable the Fed to shift monetary policy from tightening to neutral or easing. As stated in their most recent dot plot, the Fed projected three 25 bp rate cuts in 2024, and more in the following two years. Historically, such monetary policy pivots without an imminent economic recession have been beneficial tailwinds to capital market returns for both equities and bonds.

**Political uncertainty and policy implications from U.S. elections** – Since the end of World War II, the S&P 500 Index has never posted negative total returns in election years when the incumbent U.S. president was seeking re-election. The average returns in such election years were above the long-term average of all calendar years. However, as one of the more unique presidential elections in recent history, this presidential race may bring uncertainty and possible disruptions to the capital markets. Furthermore, there could be diverging and profound implications from the elections on fiscal, health care, industrial, trade, energy, and other policies. These policy implications may benefit or disadvantage different market participants within various sectors and industries.

**Crosscurrents of cyclical dynamics and secular trends** – There are many other cyclical dynamics and possible risks on the horizon. Personal consumption, the largest component of U.S. GDP, remained resilient. But consumer spending has been softening, as the excess savings from the pandemic era have been drawn down and nearing depletion. After the strong nonfarm payroll growth every month since the beginning of 2021, total U.S. job openings have decreased considerably in 2023, and the unemployment rate may tick up from current low levels. Monetary policy, including the ending of Fed tightening, tends to have long and variable lagging effects on the U.S. economy. The lagged effects are finally taking hold, and the U.S. economy is expected to grow at a slower rate in 2024, according to the Fed. These dynamics, and the Fed's shifting policy stance, are driving interest rates down and spurring equity and bond market rallies. On the other hand, there are certain counteracting secular trends. With great power competitions and geopolitical tensions, coupled with the ongoing deglobalization, fragmentations across supply chains, economies, and markets worldwide will increase. Regardless of the election outcomes, it is likely that the large federal government budget deficit will continue, if not be exacerbated, adding to burgeoning national debt and interest payment burdens in the years and decades to come. These secular trends may give rise to inflationary pressures and have long-term impacts and repercussions that are yet to fully manifest. In the foreseeable future, very few expect to see a near-zero ultra-low interest rate environment again, like the one witnessed in the previous decade.

As a post-rate hike new market cycle commences, the above macroeconomic themes and trends could lead to broader return dispersions, better potential for alpha generation from active investing, and more opportunities for less efficient asset classes and markets, especially private markets that may go mainstream in the next decade. As such, it is important to evaluate the risks in your portfolio with your financial advisor to ensure you stay invested and properly diversified based on your time horizon, financial goals, and risk tolerance. We are continuing to enhance our LVIP funds to provide a more robust and cost-effective universe of actively managed, rules-based, and passive investment options across major asset classes, including equity, fixed income, and multi-asset, that can help you achieve your unique objectives.

We hope you find the materials included in this annual report helpful as you evaluate your investments with us. Thank you for your continued trust in Lincoln Financial Group, and we wish you a healthy and prosperous 2024.

Sincerely,

Jayson R. Bronchetti, CFA, CAIA

President, Lincoln Variable Insurance Products Trust

## LVIP Delaware Mid Cap Value Fund 2023 Annual Report Commentary (unaudited)

Advised by: Lincoln Financial Investments Corporation

Subadvised by: Delaware Investments Fund Advisers

The Fund returned 11.24% (Standard Class shares with distributions reinvested) for the year ended December 31, 2023, while its benchmark, the Russell Midcap<sup>®</sup> Value Index<sup>1</sup>, returned 12.71%.

Stock selection was the main detractor from the Fund's relative performance during the year, most notably in the financial services, energy, and consumer staples sectors. Stock selection contributed in the utilities, healthcare, and basic industry sectors. In the financial services sector, the Fund's holdings in the bank industry detracted. Signature Bank was a regional bank headquartered in New York City and had offices in the New York City metropolitan area and California. Signature Bank was a leading provider of payment and depository services for customers in the digital currency industry. It also offered traditional commercial banking services. The announced liquidation of Silvergate Bank, which was a regional bank solely focused on providing depository services to participants in the digital currency industry, and the failure of Silicon Valley Bank caused a bank run at Signature Bank in March. (Neither Silvergate Bank nor Silicon Valley Bank were Fund holdings.) In two days, more than 20% of Signature Bank's deposit customers withdrew their money. The New York State Department of Financial Services closed Signature Bank's bank subsidiary and moved it into receivership under the Federal Deposit Insurance Corporation (FDIC). In March, The Fund exited its position in Signature Bank after it was placed in receivership.

Western Alliance Bancorp, a regional bank with branches in Arizona, Nevada, and California, operates several national commercial lending businesses and a national residential mortgage business. Western Alliance also operates several national banking businesses, including providing bank services for companies backed by venture capital investors, the core business of Silicon Valley Bank. These venture capital investor customers made up about 11% of Western Alliance's deposits. After the failure of Silicon Valley Bank and Signature Bank, fears of a bank run at Western Alliance caused the company's stock to decline meaningfully in a short period of time. The Fund exited its position in Western Alliance.

D.R. Horton Inc., one of the nation's largest homebuilders, focusing mainly on entry-level homes for first-time buyers, outperformed. During the year, a lack of inventory of available homes for sale and higher borrowing costs created strong demand for new homes, which benefited D.R. Horton. The company's average sales price increased, and gross margins improved during the year. The Fund maintained its position in D.R. Horton as we continue to like D.R. Horton's presence in affordable single-family homes, solid balance sheet, and favorable fundamental outlook.

Quanta Services Inc. (Quanta), a specialty engineering and construction firm with a focus on electric power, renewable energy, and underground utility infrastructure solutions, was a leading contributor during the fiscal year. Quanta's revenues reached record levels in its fiscal second quarter, and management increased guidance. Quanta is seeing momentum in its renewable segment and reported a record backlog. The Fund maintained its position in Quanta since we view it as an attractive investment with improving earnings

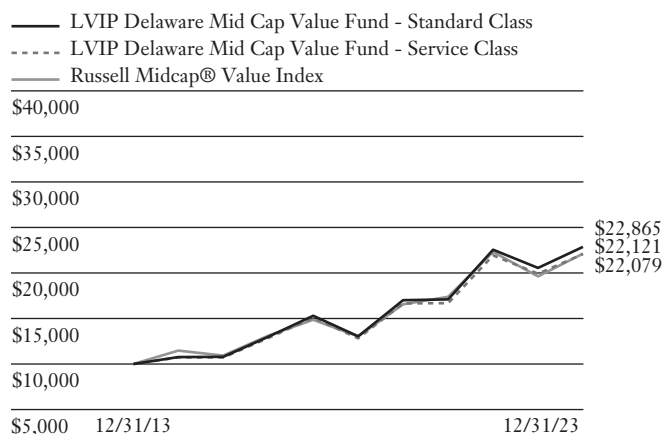

and a strong balance sheet. The Fund ended the year overweight the industrials, financial services, and basic industry sectors and remained underweight the REIT, healthcare, and consumer discretionary sectors.

The views expressed represent the Manager's assessment of the Fund and market environment as of the most recent quarter end and should not be considered a recommendation to buy, hold, or sell any security, and should not be relied on as research or investment advice.

### *Growth of \$10,000 invested 12/31/13 through 12/31/23*

This chart illustrates, hypothetically, that \$10,000 was invested in LVIP Delaware Mid Cap Value Fund shares on 12/31/13. As the chart shows, by 12/31/23, the value of the investment at net asset value, with any dividends and distributions reinvested, would have increased to \$22,865 for the Standard Class shares and to \$22,079 for the Service Class shares. For comparison, look at how the Russell Midcap<sup>®</sup> Value Index did over the same period. The same \$10,000 investment would have increased to \$22,121. Earnings from a variable annuity investment compound tax-free until withdrawn, so no adjustments were made for income taxes. Past performance is not indicative of future performance. Remember, an investor cannot invest directly in an index. The performance information does not include insurance company separate account fees and variable annuity or variable life contract charges and if these fees and charges were included, then performance would have been lower.

## LVIP Delaware Mid Cap Value Fund

### Disclosure

**OF FUND EXPENSES (unaudited)**  
For the Period July 1, 2023 to December 31, 2023

The Fund sells its shares directly or indirectly to The Lincoln National Life Insurance Company (“Lincoln Life”) and Lincoln Life & Annuity Company of New York (“LNY”). Lincoln Life and LNY hold the Fund’s shares in separate accounts that support various variable annuity contracts and variable life insurance contracts. Insurance company separate account beneficial owners incur ongoing costs such as the separate account’s cost of owning shares of the Fund. The ongoing Fund costs incurred by beneficial owners are included in the Expense Analysis table. The Expense Analysis table does not include other costs incurred by beneficial owners, such as insurance company separate account fees and variable annuity or variable life contract charges.

As a Fund shareholder, you incur ongoing costs, including management fees; distribution and/or service (“12b-1”) fees; and other Fund expenses. Shareholders of other funds may also incur transaction costs, including sales charges (loads) on purchase payments, reinvested dividends or other distributions, redemption fees, and exchange fees. This Expense Analysis is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The Expense Analysis is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period from July 1, 2023 to December 31, 2023.

#### Actual Expenses

The first section of the table, “Actual”, provides information about actual account values and actual expenses. You may use the information in this section of the table, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first section under the heading entitled “Expenses Paid During Period” to estimate the expenses you paid on your account during the period.

#### Hypothetical Example for Comparison Purposes

The second section of the table, “Hypothetical”, provides information about hypothetical account values and hypothetical expenses based on the Fund’s actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund’s actual return. The hypothetical account values and expenses cannot be used to estimate the actual ending account balance or expenses you paid for the period. You can use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only. The Fund does not charge transaction fees, such as sales charges (loads), redemption fees, or exchange fees. Therefore, the second section of the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds.

### Expense Analysis of an Investment of \$1,000

	<i>Beginning Account Value 7/1/23</i>	<i>Ending Account Value 12/31/23</i>	<i>Annualized Expense Ratio</i>	<i>Expenses Paid During Period 7/1/23 to 12/31/23*</i>
<b>Actual</b>				
Standard Class Shares	\$1,000.00	\$1,079.00	0.43%	\$2.25
Service Class Shares	1,000.00	1,077.10	0.78%	4.08
<b>Hypothetical (5% return before expenses)</b>				
Standard Class Shares	\$1,000.00	\$1,023.00	0.43%	\$2.19
Service Class Shares	1,000.00	1,021.30	0.78%	3.97

\* “Expenses Paid During Period” are equal to the Fund’s annualized expense ratio, multiplied by the average account value over the period, multiplied by 184/365 (to reflect the one-half year period).

# LVIP Delaware Mid Cap Value Fund

## Notes to Financial Statements

December 31, 2023

Lincoln Variable Insurance Products Trust (“LVIP” or the “Trust”) is a Delaware statutory trust. The Trust consists of 114 series, each of which is treated as a separate entity for certain matters under the Investment Company Act of 1940 (the “1940 Act”) and for other purposes. A shareholder of one series is not deemed to be a shareholder of any other series. These financial statements and the related notes pertain to the LVIP Delaware Mid Cap Value Fund (the “Fund”). The financial statements of the Trust’s other series are included in separate reports to their shareholders. The Trust is an open-end investment company. The Fund is a diversified management investment company registered under the 1940 Act. The Fund sells its shares directly or indirectly to The Lincoln National Life Insurance Company (“Lincoln Life”) and Lincoln Life & Annuity Company of New York (“LNY”). Lincoln Life and LNY hold the Fund’s shares in separate accounts that support various variable annuity contracts and variable life insurance contracts.

The Fund’s investment objective is to maximize long-term capital appreciation (as measured by the change in the value of Fund shares over a period of three years or longer).

### 1. Significant Accounting Policies

The Fund is considered an investment company under U.S. generally accepted accounting principles (“U.S. GAAP”) and follows the accounting and reporting guidelines for investment companies. The following accounting policies are consistently followed by the Fund in the preparation of its financial statements in conformity with U.S. GAAP including, but not limited to, Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”), Topic 946, “Financial Services- Investment Companies”.

*Security Valuation*—Domestic equity securities, except those traded on The Nasdaq Stock Market LLC (“Nasdaq”), are valued at the last quoted sales price as of the time of the regular close of the exchange on which they are traded on the valuation date. Equity securities traded on Nasdaq are valued in accordance with the Nasdaq Official Closing Price, which may not be the last sale price. If on a particular day an equity security does not trade, then the mean between the bid and ask prices is used, which approximates fair value. Open-end investment companies are valued at their closing net asset value (“NAV”). Investments in government money market funds have a stable NAV. Valuations for fixed income securities, including short-term debt securities, are typically the prices supplied by third party pricing services. In instances where sufficient market activity exists, the pricing services may utilize a market-based approach through which quotes from market makers are used to determine fair value. In instances where sufficient market activity may not exist or is limited, the pricing services also utilize proprietary valuation models which may consider market characteristics, including but not limited to, benchmark yield curves, credit spreads, estimated default rates, anticipated market interest rate volatility, coupon rates, anticipated timing of principal repayments, underlying collateral, and other unique security features in order to estimate the relevant cash flows, which are then discounted to calculate the fair value. Other investments for which market quotations are not reliable or readily available are generally valued at fair value by the Fund’s Fair Valuation Committee as determined in good faith under policies adopted by the Fund’s Board of Trustees (the “Board”). The Valuation Committee was established by Lincoln Financial Investments Corporation (“LFI”) (formerly, Lincoln Investment Advisors Corporation (“LIAC”)), the Board designated “valuation designee”, to perform fair valuations pursuant to SEC Rule 2a-5. In determining whether market quotations are reliable or readily available, various factors are taken into consideration, such as sub-adviser recommendations, market closures or trends, political events, the nature of and duration of any restrictions on disposition, halt or suspension of trading in a security, stale pricing where the unchanged price is no longer reflective of current market value, or out of tolerance pricing defined as when the daily price of the security varies by more than established tolerance guidelines from the price applied on the prior business day, as applicable.

*Federal Income Taxes*—No provision for federal income taxes has been made because the Fund intends to continue to qualify for federal income tax purposes as a regulated investment company under Subchapter M of the Internal Revenue Code of 1986 and to make the requisite distributions to shareholders. The Fund evaluates tax positions taken or expected to be taken in the course of preparing the Fund’s tax returns to determine whether the tax positions are “more-likely-than-not” to be sustained by the applicable tax authority. Tax positions deemed not to meet the more-likely-than-not threshold are recorded as a tax expense in the current year. Management has analyzed the tax positions taken or to be taken on the Fund’s federal income tax returns through the year ended December 31, 2023 and for all open tax years (years ended December 31, 2020–December 31, 2022), and has concluded that no provision for federal income tax is required in the Fund’s financial statements. If applicable, the Fund recognizes interest accrued on unrecognized tax benefits in interest expense and penalties in other expenses on the Statement of Operations. During the year ended December 31, 2023, the Fund did not incur any interest or tax penalties.

*Class Accounting*—Investment income, common expenses, and realized and unrealized gain (loss) on investments are allocated to the classes of the Fund on the basis of daily net assets of each class. Distribution expenses relating to a specific class are charged directly to that class.

*Use of Estimates*—The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the fair value of investments, the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates and the differences could be material.

# LVIP Delaware Mid Cap Value Fund

## Notes to Financial Statements (continued)

### 1. Significant Accounting Policies (continued)

*Other*—Expenses common to all series of the Trust are allocated to each series based on their relative net assets. Expenses exclusive to a specific series of the Trust are charged directly to the applicable series. Security transactions are recorded on the date the securities are purchased or sold (i.e., the trade date) for financial reporting purposes. Costs used in calculating realized gains and losses on the sale of investment securities are those of the specific securities sold. Dividend income is recorded on the ex-dividend date and interest income is recorded on the accrual basis. Taxable non-cash dividends are recorded as dividend income. Distributions received from investments in Real Estate Investment Trusts (“REITs”) are recorded as dividend income on the ex-dividend date, subject to reclassification upon notice of the character of such distributions by the issuer or management estimate. Discounts and premiums on debt securities are amortized/accreted to interest income using the effective interest method. The Fund declares and distributes dividends from net investment income, if any, semi-annually. Distributions from net realized gains, if any, are declared and distributed at least annually. Dividends and distributions, if any, are recorded on the ex-dividend date.

Subject to seeking best execution, the Fund may direct certain security trades to brokers who have agreed to rebate a portion of the related brokerage commissions to the Fund in cash. In general, best execution refers to many factors, including the price paid or received for a security, the commission charged, the promptness and reliability of execution, the confidentiality and placement of the transaction, and other factors affecting the overall benefit obtained by the Fund on the transaction. There were no commission rebates for the year ended December 31, 2023.

### 2. Management Fees and Other Transactions With Affiliates

LFI is a registered investment adviser and wholly owned subsidiary of Lincoln Life, a wholly owned subsidiary of Lincoln National Corporation. LFI is responsible for overall management of the Fund’s investment portfolio, including monitoring of the Fund’s investment sub-adviser, and providing certain administrative services to the Fund. For its services, LFI receives a management fee at an annual rate of 0.48% of the first \$200 million of the Fund’s average daily net assets; 0.40% of the next \$200 million; and 0.30% of the Fund’s average daily net assets in excess of \$400 million. The management fee is calculated daily and paid monthly.

Delaware Investments Fund Advisers (“DIFA”) (the “Sub-Adviser”), a series of Macquarie Investment Management Business Trust, is responsible for the day-to-day management of the Fund’s investment portfolio. For these services, LFI, not the Fund, pays DIFA a fee based on the Fund’s average daily net assets.

Pursuant to an administration agreement with the Trust, Lincoln Life provides various administrative services necessary for the operation of the Fund. For these services, the Fund reimburses Lincoln Life for the cost of administrative and internal legal services, which is included in “Accounting and administration expenses” on the Statement of Operations. For the year ended December 31, 2023, costs for these administrative and legal services were as follows:

Administrative .....	\$72,128
Legal .....	11,800

Lincoln Life also provides certain contract holder and additional corporate services to the Fund. The Fund pays Lincoln Life a fee for such services at an annual rate of 0.029% of the Fund’s average daily net assets, calculated daily and paid monthly. The fee is included in “Shareholder servicing fees” on the Statement of Operations.

Lincoln Life also prints and mails Fund documents on behalf of the Fund. The cost of these services is included in “Reports and statements to shareholders” on the Statement of Operations. The Fund reimburses Lincoln Life for the cost of these services, which amounted to \$17,724 for the year ended December 31, 2023.

The Fund currently offers two classes of shares: the Standard Class and the Service Class. The two classes of shares are identical, except that Service Class shares are subject to a distribution and service fee (“12b-1 Fee”). Pursuant to its distribution and service plan, the Fund is authorized to pay, out of the assets of the Service Class shares an annual 12b-1 Fee at a rate not to exceed 0.35% of the average daily net assets of the Service Class shares, as compensation or reimbursement for services rendered and/or expenses borne. The Trust has entered into a distribution agreement with Lincoln Financial Distributors, Inc. (“LFD”), an affiliate of LFI. The 12b-1 Fee is 0.35% of the average daily net assets of the Service Class shares. The 12b-1 Fee can be adjusted only with the consent of the Board. The fee is calculated daily and paid monthly.

At December 31, 2023, the Fund had liabilities payable to affiliates as follows:

Management fees payable to LFI .....	\$279,195
Distribution fees payable to LFD .....	57,253
Shareholder servicing fees payable to Lincoln Life .....	22,391

Certain officers and trustees of the Fund are also officers or directors of Lincoln Life and its affiliates and receive no compensation from the Fund. The Fund pays compensation to unaffiliated trustees.

## LVIP Delaware Mid Cap Value Fund

### Notes to Financial Statements (continued)

#### 3. Investments

For the year ended December 31, 2023, the Fund made purchases and sales of investment securities other than short-term investments as follows:

Purchases .....	\$108,758,417
Sales .....	174,296,691

At December 31, 2023, the cost and unrealized appreciation (depreciation) of investments for federal income tax purposes were as follows:

Cost of investments .....	\$578,361,264
Aggregate unrealized appreciation of investments . . .	\$369,981,751
Aggregate unrealized depreciation of investments . . .	(20,325,741)
Net unrealized appreciation of investments .....	\$349,656,010

U.S. GAAP defines fair value as the price that the Fund would receive to sell an asset or pay to transfer a liability in an orderly transaction between market participants at the measurement date under current market conditions. A three level hierarchy for fair value measurements has been established based upon the transparency of inputs to the valuation of an asset or liability. Inputs may be observable or unobservable and refer broadly to the assumptions that market participants would use in pricing the asset or liability. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity's own assumptions about the assumptions that market participants would use in pricing the asset or liability developed based on the best information available under the circumstances. Each investment in its entirety is assigned a level based upon the observability of the inputs which are significant to the overall valuation. The three level hierarchy of inputs is summarized below.

Level 1—inputs are quoted prices in active markets for identical investments (e.g., equity securities, open-end investment companies, futures contracts, options contracts)

Level 2—other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs) (e.g., debt securities, government securities, swap contracts, foreign currency exchange contracts, foreign securities utilizing international fair value pricing)

Level 3—inputs are significant unobservable inputs (including the Fund's own assumptions used to determine the fair value of investments) (e.g., indicative quotes from brokers, fair valued securities)

The following table summarizes the valuation of the Fund's investments by fair value hierarchy levels as of December 31, 2023:

	Level 1	Level 2	Level 3	Total
<b>Investments:</b>				
<b>Assets:</b>				
Common Stock .....	\$904,431,064	\$ —	\$—	\$904,431,064
Money Market Fund .....	8,988,367	—	—	8,988,367
Short-Term Investment .....	—	14,597,843	—	14,597,843
<b>Total Investments</b> .....	<u>\$913,419,431</u>	<u>\$14,597,843</u>	<u>\$—</u>	<u>\$928,017,274</u>

There were no Level 3 investments at the beginning or end of the year.

#### 4. Dividend and Distribution Information

Income and long-term capital gain distributions are determined in accordance with federal income tax regulations, which may differ from U.S. GAAP. This difference is primarily due to wash sales. The fiscal year in which amounts are distributed may differ from the year in which the net investment income and net realized gains are recorded by the Fund for financial reporting purposes. The tax character of dividends and distributions paid during the years ended December 31, 2023 and 2022 were as follows:

	Year Ended	
	12/31/23	12/31/22
Ordinary income .....	\$13,208,167	\$15,843,050
Long-term capital gains .....	73,488,718	28,311,748
Total .....	<u>\$86,696,885</u>	<u>\$44,154,798</u>

## LVIP Delaware Mid Cap Value Fund

### Notes to Financial Statements (continued)

#### 5. Components of Distributable Earnings on a Tax Basis

As of December 31, 2023, the components of distributable earnings on a tax basis were as follows:

Undistributed long-term capital gains .....	\$ 27,032,243
Net unrealized appreciation .....	349,656,010
Distributable earnings/(accumulated loss) .....	<u>\$376,688,253</u>

For financial reporting purposes, any permanent differences resulting from different book and tax treatment are reclassified between distributable earnings/(accumulated loss) and paid-in capital. Results of operations and net assets are not affected by these reclassifications. For the year ended December 31, 2023, the Fund recorded the following permanent reclassification primarily related to real estate investment trusts (REITs):

<b>Distributable</b>	
<b>Earnings/(Accumulated</b>	
<b>Loss)</b>	<b>Paid-in capital</b>
<u>\$(84,677)</u>	<u>\$84,677</u>

At December 31, 2023, the Fund had no capital loss carryforwards for federal income tax purposes.

#### 6. Capital Shares

Transactions in capital shares were as follows:

	Year Ended	
	12/31/23	12/31/22
Shares sold:		
Standard Class .....	1,368,797	1,619,466
Service Class .....	525,338	900,461
Shares reinvested:		
Standard Class .....	1,844,898	917,593
Service Class .....	485,201	219,234
	<u>4,224,234</u>	<u>3,656,754</u>
Shares redeemed:		
Standard Class .....	(2,903,384)	(3,578,634)
Service Class .....	(730,758)	(863,012)
	<u>(3,634,142)</u>	<u>(4,441,646)</u>
Net increase (decrease) .....	<u>590,092</u>	<u>(784,892)</u>

#### 7. Line of Credit

The Fund, along with other funds in the Trust ("Participants"), is a participant in a \$200,000,000 revolving line of credit intended to be used for temporary or emergency purposes as an additional source of liquidity to fund redemptions of investor shares. Under the agreement, prior to February 14, 2024, the Participants were charged an annual commitment fee of 0.15%, which is allocated across the Participants based on a weighted average of the respective net assets of each Participant. Effective February 14, 2024, the commitment fee is 0.20%. The Participants are permitted to borrow up to a maximum of one-third of their net assets (one-fifth of their net assets for any Participant that is a fund of funds) under the agreement. Each Participant is individually, and not jointly, liable for its particular advances, if any, under the line of credit. The line of credit available under the agreement expires on February 12, 2025.

The Fund had no amounts outstanding as of December 31, 2023, or at any time during the period then ended.

#### 8. Risk Factors

The Fund invests in REITs and is subject to the risks associated with that industry. If the Fund acquires a direct interest in real estate as a result of defaults or receives rental income directly from real estate holdings, its tax status as a regulated investment company could be jeopardized. The Fund had no direct real estate holdings during the year ended December 31, 2023. The Fund's REIT holdings are also affected by interest rate changes, particularly if the REITs it holds use floating rate debt to finance their ongoing operations.

Natural or environmental disasters, such as earthquakes, fires, floods, hurricanes, tsunamis, and other severe weather-related phenomena generally, and widespread disease and illness, including pandemics and epidemics, have been and can be highly disruptive to economies and markets. They may adversely impact individual companies, sectors, industries, markets, currencies, interest and inflation rates, credit ratings, investor sentiment, and other factors affecting the value of the Fund's investments. For example, the novel coronavirus (COVID-19), which was

## **LVIP Delaware Mid Cap Value Fund**

### **Notes to Financial Statements (continued)**

#### **8. Risk Factors (continued)**

first detected in 2019, has resulted in, among other things, stressors to healthcare service infrastructure, country border closings, business and school closings, and disruptions to supply chains and customer activity. Natural disaster/epidemic risk could have a significant adverse impact on the Fund's portfolio investments.

The Fund may invest in illiquid securities, which may include securities with contractual restrictions on resale, securities exempt from registration under Rule 144A of the Securities Act of 1933, as amended, and other securities which may not be readily marketable. The relative illiquidity of these securities may impair the Fund from disposing of them in a timely manner and at a fair price when it is necessary or desirable to do so. While maintaining oversight, the Fund's Board has delegated to LFI, the day-to-day functions of determining whether individual securities are illiquid for purposes of the Fund's limitation on investments in illiquid securities. Securities eligible for resale pursuant to Rule 144A, which are determined to be liquid, are not subject to the Fund's limit on investments in illiquid securities.

#### **9. Contractual Obligations**

The Fund enters into contracts in the normal course of business that contain a variety of indemnifications. The Fund's maximum exposure under these arrangements is unknown; however, the Fund has not had prior claims or losses pursuant to these contracts. Management has reviewed the Fund's existing contracts and expects the risk of material loss to be remote.

#### **10. Recent Accounting Pronouncements**

In June 2022, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update No. 2022-03 ("ASU 2022-03"), "Fair Value Measurement of Equity Securities Subject to Contractual Sale Restrictions" ("Topic 820"). ASU 2022-03 clarifies the guidance in Topic 820, related to the measurement of the fair value of an equity security subject to contractual sale restrictions, where it eliminates the need to apply a discount to fair value of these securities, and introduces disclosure requirements related to such equity securities. The guidance is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2023, and allows for early adoption. Management has concluded that this guidance will not have a material impact on the Fund.

#### **11. Subsequent Events**

Management has evaluated subsequent events for possible recognition or disclosure in the financial statements through the date the financial statements are issued. Management has determined that no material events or transactions occurred that would require recognition or disclosure in the Fund's financial statements.

## Report of Independent Registered Public Accounting Firm

To the Shareholders and the Board of Trustees of LVIP Delaware Mid Cap Value Fund

### Opinion on the Financial Statements

We have audited the accompanying statement of net assets of LVIP Delaware Mid Cap Value Fund (the “Fund”) (one of the series constituting Lincoln Variable Insurance Products Trust (the “Trust”) as of December 31, 2023, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, the financial highlights for each of the five years in the period then ended and the related notes (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund (one of the series constituting Lincoln Variable Insurance Products Trust) at December 31, 2023, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended and its financial highlights for each of the five years in the period then ended, in conformity with U.S. generally accepted accounting principles.

### Basis for Opinion

These financial statements are the responsibility of the Trust’s management. Our responsibility is to express an opinion on the Fund’s financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Trust in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Trust is not required to have, nor were we engaged to perform, an audit of the Trust’s internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Trust’s internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of December 31, 2023, by correspondence with the custodian. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

The signature of Ernst + Young LLP is written in a cursive, handwritten style in black ink.

We have served as the auditor of one or more LVIP investment companies since 1981.

## **LVIP Delaware Mid Cap Value Fund Other Fund Information (unaudited)**

### **Approval of Investment Management and Subadvisory Agreements**

On August 14 and September 12-13, 2023, the Board of Trustees (the “Board”) of Lincoln Variable Insurance Products Trust (the “Trust”) met to consider, among other things, (i) the renewal of the investment management agreement between the Trust and Lincoln Financial Investments Corporation (“LFI”) and (ii) the renewal of the subadvisory agreements with various subadvisers (collectively, with the investment management agreement, the “Advisory Agreements”) for various series of the Trust (each, a “Fund” and collectively, the “Funds”). The trustees of the Trust who are not “interested persons” (as such term is defined in the Investment Company Act of 1940) (the “Independent Trustees”) had requested and reviewed materials provided by LFI, Lincoln National Life Insurance Company (“Lincoln Life”), Morningstar of Broadridge Financial Solutions, Inc. (“Morningstar”), an independent provider of investment company data, and the subadvisers, prior to and during the meetings, and had reviewed a memorandum from their independent legal counsel that advised them of their fiduciary duties pertaining to renewal of investment management and subadvisory agreements and the factors they should consider in evaluating such agreements. LFI, Lincoln Life, Morningstar and the subadvisers provided information to the Independent Trustees regarding the nature, extent and quality of services provided, information comparing the investment performance, management fees and operating expense ratio of the Fund to other funds, estimated profitability and/or financial condition, and compliance and regulatory matters. After reviewing the information received, the Independent Trustees requested supplemental information and LFI and the applicable subadvisers provided materials in response. The Independent Trustees and their independent legal counsel met separately from the “interested” trustee, Trust officers and Lincoln Life employees to consider the renewal of the Advisory Agreements. The Board was assisted in its evaluation by the Investment Committee of the Board, which meets with LFI quarterly and monitors investment performance, and by the Audit Committee of the Board, which meets with LFI quarterly and monitors the Fund’s expenses, among other matters. The Board also receives information about the Fund from LFI and Lincoln Life throughout the year in connection with the regular quarterly Board meetings. The Board considered that the Fund is only offered to contract owners of variable annuities and variable life insurance policies.

The Board determined that, given the totality of the information provided with respect to each Advisory Agreement, the Board had received sufficient information to approve the Advisory Agreements for the Fund. In considering the renewal of the Advisory Agreements, the Board did not identify any single factor or group of factors as all-important or controlling, and considered a variety of factors in its analysis including those discussed below. The Board did not allot a particular weight to any one factor or group of factors.

### **Approval of Investment Management Agreement**

*Nature, Extent and Quality of Services.* In considering the renewal of the investment management agreement with LFI, the Board considered the nature, extent and quality of services provided to the Fund by LFI, including LFI personnel and resources and LFI’s criteria for review of a subadviser’s performance. The Board reviewed the services provided by LFI in serving as investment adviser, including the backgrounds of the personnel providing the investment management services. It also reviewed information provided regarding compliance and regulatory matters. The Board also considered that certain Lincoln Life personnel provide services to the Fund on behalf of LFI and that Lincoln Life provides administrative services to the Fund under an administration agreement. The Board concluded that the services provided by LFI were satisfactory.

*Performance.* The Board reviewed performance information (including total return, standard deviation and Sharpe ratio) provided by Morningstar for the standard class of the Fund compared to the median performance of funds in a peer group of a Morningstar category underlying variable insurance products (“Morningstar peer group”) and a benchmark index for various periods ended March 31, 2023. The Board also received total return information for the Fund compared to the quarterly average total return of funds in the respective Morningstar category.

The Board referred to information prepared by LFI evaluating the Fund’s performance. These reports include performance information for the Fund (including total return, standard deviation and Sharpe ratio) compared to the median performance of the respective Morningstar category and a benchmark index for various periods and commentary regarding the factors believed to have impacted the Fund’s performance, such as market conditions and the impact of portfolio construction. The Board considered that LFI actively monitors the Fund’s performance and works with the Investment Committee of the Board in analyzing performance issues. The Board also noted that past performance is only one of the factors that it considers in evaluating the renewal of the Advisory Agreements.

The Board considered that LFI does not manage the day-to-day investment portfolio of the Fund, and has delegated those duties to unaffiliated subadvisers responsible for investment performance. The Board noted the ongoing oversight activities performed by LFI, including review of returns on a relative and absolute basis, oversight of brokerage execution quality and compliance reviews. The Board concluded that LFI had appropriately reviewed and monitored the subadviser’s investment performance.

*Management Fee.* The Board reviewed the Fund’s investment management fee and expense ratio and reviewed information comparing the investment management fee and expense ratio to those of a Morningstar peer group and category median for the Fund. The Board noted that the net investment management fee was lower than the median net investment management fee of the Morningstar peer group. In light of the nature, quality and extent of services provided by LFI, the Board concluded that the Fund’s investment management fee was reasonable.

## **LVIP Delaware Mid Cap Value Fund Other Fund Information (unaudited) (continued)**

### **Approval of Investment Management Agreement (continued)**

*Economies of Scale.* The Board considered the extent to which economies of scale would be realized as the Fund grows and whether fee levels reflect a reasonable sharing of such economies of scale for the benefit of Fund investors. The Board considered that the Fund had breakpoints in the investment management fee schedule and concluded that economies of scale were appropriately shared with investors.

*Profitability.* The Board also reviewed the estimated profitability of LFI with respect to the Fund individually and the Funds overall and concluded that the estimated profitability of LFI in connection with the management of the Fund was not unreasonable.

*Fallout Benefits.* Because of its relationship with the Trust, LFI and its affiliates receive certain benefits. The Board reviewed materials provided by LFI as to any such benefits. Lincoln Insurance Companies receive 12b-1 fees which are paid by the Fund's Service Class shares through Lincoln Financial Distributors, Inc., which is the principal underwriter and distributor for the Fund. Lincoln Life serves as the administrator for the Fund for which it is separately compensated. The Board also noted that Lincoln Insurance Companies may be eligible to claim on their tax returns "dividends received deductions" in connection with dividends received from LVIP Funds by the Lincoln Insurance Companies holding Fund shares on behalf of contract holders.

### **Approval of Subadvisory Agreement**

*Nature, Extent and Quality of Services.* In considering the renewal of the subadvisory agreement between LFI and Delaware Investments Fund Advisers ("DIFA") on behalf of the LVIP Delaware Mid Cap Value Fund, the Board considered the nature, extent and quality of services provided by DIFA under the subadvisory agreement. The Board reviewed the services provided by DIFA, the backgrounds of the investment professionals servicing the Fund, and the reputation, resources and investment approach of DIFA. The Board considered that DIFA uses an affiliated investment adviser as sub-subadviser in connection with the subadvisory services provided to the Fund. It also reviewed information provided regarding the structure of portfolio manager compensation, trading and brokerage arrangements, risk management and compliance matters.

*Performance.* The Board reviewed the LVIP Delaware Mid Cap Value Fund's total return compared to the total return of a peer group of funds included in the Morningstar Mid-Cap Value funds category and the Russell Mid Cap Value Total Return USD Index. The Board noted that the Fund's total return was below the return of the Morningstar peer group median and above the return of the benchmark index for the one-year period, above the return of the Morningstar peer group median and the benchmark index for the three- and ten-year periods and the same as the return of the Morningstar peer group median and below the return of the benchmark index for the five-year period. The Board concluded that the services provided by DIFA were satisfactory.

*Subadvisory Fees and Economies of Scale.* The Board reviewed the subadvisory fee schedule and the management fee of a fund with a similar investment strategy for which DIFA serves as the investment adviser. The Board considered that LFI compensates DIFA from its fees and that the subadvisory fee schedule was negotiated between LFI and DIFA. The Board concluded that the subadvisory fees for the Fund were reasonable.

*Profitability and Fallout Benefits.* The Board considered information regarding DIFA's estimated profitability from providing subadvisory services to the Fund. The Board reviewed materials provided by DIFA as to any additional benefits it receives and noted DIFA's statement that its relationship with the Fund may add to its prestige and visibility in the investment community and may make DIFA more attractive to potential clients and enhance DIFA's ability to obtain research with soft dollars.

*Conclusion.* Based on all of the information considered and the conclusions reached, the Board determined that the terms of the Advisory Agreements for the Fund are fair and reasonable, and that the continuation of the Advisory Agreements is in the best interests of the Fund.

## Officer/Trustee Information for Lincoln Variable Insurance Products Trust (unaudited)

The Board of Trustees (“Board of Trustees” or the “Board”) oversees the management of the Funds and elects the Trust’s officers. The Trustees of the Trust (“Trustees”) have the power to amend the Trust’s bylaws, to declare and pay dividends, and to exercise all the powers of the Trust except those granted to the shareholders. The Trustees hold their position until their resignation, retirement, or their successors are elected and qualified. The Trust has a mandatory retirement policy for its Board of Trustees. Such policy requires that a Trustee retire from the Board no later than the end of the calendar year (December 31) that occurs after the earliest of (1) the Independent Trustee’s 75th birthday or (2) the 20th anniversary of the Trustee becoming a Board member.

The Trust’s officers are responsible for the Funds’ day-to-day operations. Information pertaining to the Trustees and Executive Officers of the Trust is set forth below. The Trustee that is deemed an “interested person,” as defined in the 1940 Act, is included in the table titled, “Interested Trustee.” Trustees who are not interested persons are referred to as Independent Trustees.

The term Fund Complex includes the 114 series of Lincoln Variable Insurance Products Trust.

### Interested Trustee

Name, Address and Year of Birth	Position(s) Held with the Funds	Term of Office and Length of Time Served	Principal Occupation(s) during Past Five Years	Number of Funds in Fund Complex Overseen by Trustee	Other Board Memberships Held by Trustee during Past Five Years
<b>Jayson R. Bronchetti*</b> 150 N. Radnor-Chester Road Radnor, PA 19087 YOB: 1979	Chairman and Trustee	Since June 2021	Director and President, Lincoln Financial Investments Corporation; Executive Vice President, Chief Investment Officer of The Lincoln National Life Insurance Company; Formerly: Director, Senior Vice President and Head of Funds Management.	114	Lincoln Financial Investments Corporation; CITRS, Inc.

\* Mr. Bronchetti is an interested person of the Trust because he is a Director and Officer of Lincoln Financial Investments Corporation, the investment adviser to the Trust, and an officer of The Lincoln National Life Insurance Company, the parent company of the Trust’s investment adviser.
